To Whom It May Concern,

Re: NM Contracting, LLC

5 Star Construction has been doing business with NM Contracting, LLC for the past two years. We have enjoyed an excellent working relationship and have experienced no problems with NM Contracting. They are prompt with sending payment to there suppliers for materials they have supplied. They are currently working for us on the Police Training Facility in McAllen, Texas and have been on schedule in providing materials and manpower.

We support this company and look forward to their continued success in the industry. If you have any questions feel free to contact us.
